**The Giving Continues!**

ROUND ROCK, TX, May 13, 2010 — Long time community member and business professional Keith A. Hickman, Principal of KAHickman Architects and Interior Designers, announced today that he will donate the lighting needs for Round Rock’s newest art venue – Round Rock Area Arts Council ARTSPACE. With a mission to encourage, support, and enhance Arts and Cultural activities in the Round Rock area, the non-profit Round Rock Area Arts Council formed in January of 2009 and ARTSPACE celebrated its community gallery grand opening yesterday. Hickman is honored to be a part of promoting the arts and culture in the Round Rock. “A well rounded place to live strengthens the community at its core,” he states. “This local ARTSPACE promotes quality of life for neighborhood residence as well as invites a myriad of visitors, further supporting the City.”

Hickman will work closely with President Cathy Kincaid and Vice President Kris Whitfield to finalize the lighting details.
